## Software skills

- Paquete office
- R-studio
- Python
- SQL
- Power BI
- SAS

## Certifications:

- Data: Financial data capture with Python, text mining, data analysis, SQL, etc. [Click](#)
- Mathematics and Finance: Mathematical Logic, Investor Course, etc. [Click](#)
- Coaching and English Workshop. [Click](#)

I specialize in actuarial data analysis, process automation, model development, and information visualization for decision-making. I am continuously training in data science, programming, capital markets, and insurance. I work with efficient methodologies and am highly receptive to constructive feedback, with a strong interest in continuous learning and contributing value through technical knowledge and interdisciplinary collaboration.

## Experience

### Group ST – Actuarial Department 07/2024 – 05/2025

#### Analytics

- Documented and created technical manuals for the migration of projects from SAS to SQL.
- Generated queries in SAS and acquired basic knowledge of Qlik Sense.

#### Reserves

- Collaborated with accounting, operations, and claims teams in the monthly closing process.

#### Reinsurance

- Developed portfolio profiles in Power BI. Integrated multiple data sources and analyzed maximum probable loss per risk (accumulation).

#### Pricing – Individual Life Insurance

- Supported the commercial area by projecting different scenarios for life insurance with savings components.
- Updated training manuals and participated in internal training sessions.
- VBA programming in Excel for estimators with numerical methods and tax updates.

#### Pricing – Mass Market Products

- Review and summary of personal and property product files.
- Developed Power BI reports to automate controls related to these files.
- Analyzed business cases, claims ratios, and policy persistency to optimize pricing.

### Administrative Assistant, Don Beto S.A. 08/2021 - 07/2024

- Preparation and monitoring of budgets, financial planning, analysis of operating costs and expenses, sending of receipts.

### University Teaching Assistant – Faculty of Economic Sciences, University of Buenos Aires (UBA)

- Teaching Assistant in Statistics I, Chair Silva. 02/2019 - 03/2023.
- Teaching Assistant in Mathematics for Economists, Chair García Fronti. 03/2022 - 03/2023.

## Education

- Bachelor's degree in Actuarial Science in Economics – Faculty of Economic Sciences, (94%). Elective courses: Scientific Computing for Actuarial Applications and Insurance Law.

## Languages

- English advanced (C1).
- Spanish native.
